Kizmit TCG — Paper Playtest Kit kit 05bf85

Draft rules for a first playtest with 5 characters: **Thornback** (a Green/Green tank), **Skitterwisp** (a Red/Blue token thief), **Brasshorn** (a Yellow/Orange striker), **Vigilux** (a White/Indigo controller), **Petalstep** (a Pink/Purple skirmisher). Pick one each. Every number here is a guess. Play, then change it. Print at **100% / actual size**, cut along the card borders, colour whatever you like.

What's in the kit

- **2 illustrated pages** (next): how each movement pattern works on different terrain, and a turn step by step.
- **2 character sheets** (landscape pages) with HP, ink and holding-point trackers.
- **20 sheet-slot cards**: each character's Race, two Inks and Character card. Keep them face down on your sheet; flip one when play reveals it.
- **100 spell cards**: 5 20-card decks, plus blanks to design your own.
- **46 terrain cards**: the neutral centre land and 5 9-card halves (use the two that belong to the characters playing), plus blanks. Lands are poker size: the top and bottom halves are the two squares.
- Want one character's cards on their own? `build_decks.py` prints a complete deck per character, ready for your art.
- **Tokens**: claim tokens and two anonymous pawns (a pawn must never show who you are).
- **A feedback sheet** (last page): print one per game and fill it in together right after.

Setup

1. **Lock in your character** (in a real match: all three) before any terrain is laid.
2. Lay the **neutral centre land**. Flip a coin: the winner chooses who lays first. Players alternate laying one terrain card from their own half. Each card must touch an existing card edge to edge *(playtest assumption)*, and **every terrain card points the same way** (from one player to the other), so the squares form a grid. Your **star card is laid last**.
3. The player who laid **first moves second**. Put your pawn on your star square.
4. Each player starts with **1 ink** of their starting square's colour, shuffles their 20-card deck and draws **5**.

Your turn

Draw 1 card (the first player skips this on turn 1). Score holding points (below). Then take **2 actions**, in any combination, repeats allowed:

Move	Move using your race's movement pattern (on your Race card).
Gather	Take 1 ink of the square you stand on — **2** if it is one of your inks. No cap on ink. Inks outside your identity only pay **generic** costs (the number).
Rest	Put a card from your hand on the bottom of your deck, then draw a card.
Claim	Standing on a claimable land with no token: place your token on it.
Clear (free)	Standing on a land with an opponent's token: remove it. **Costs no action.**
Cast	Cast a sorcery from your hand by paying its ink cost.

You may claim and leave in the same turn.

Movement and terrain

- Squares are counted in any direction; a diagonal step counts as 1. You can't move off the cards or onto your opponent's square.
- **Ink bonus:** start a move on a square of one of your inks → move 1 extra square.
- **Rough terrain** (Forest, Mountain, Marsh): entering a rough square ends that move action. **Blink** ignores this.
- **Line of sight**: nothing blocks it for now, not gaps and not rough terrain. Future terrain may block it.

Reactions (instants)

An instant shows a **trigger**. When it happens on your opponent's turn and you can pay, you may cast it. It costs **no action**. Limit: **one reaction per opponent turn**. Your unspent ink is public, so a big ink pool is a soft tell.

Your sheet and reveals

Your sheet shows what your opponent has learned. Your deck may only contain spells that match your sheet, so every card you play is a clue:

△ ink spell	reveals one Ink slot of that colour (a cost with two of the same ink reveals both)
Race spell	reveals your Race card
Signature spell	reveals your Character card

Flip the matching slot card face up when it's revealed. At the end of the match, both players show their sheets and decks to check them.

Winning a game

- **Knockout:** reduce your opponent to 0 HP. A knocked-out character can't hold land.
- **Hold land:** at the start of your turn, score 1 point for each land holding your token. **15 points wins.**
- **Decks run out:** once both spell decks are empty, finish the round. The player with the most holding points wins. Ties: most lands holding your token, then the higher share of max HP left, then a draw. (A player whose deck is empty simply skips their draw.)

The match (best of three)

The same board is used for every game. A knocked-out character is out for the match. Survivors keep their damage and their revealed slots; winning restores nothing. Tokens, points and ink reset each game. The loser of a game chooses who moves first next game. *For a full match each player needs three characters; with this kit, play single games or split the roster.*

Things to watch while you play

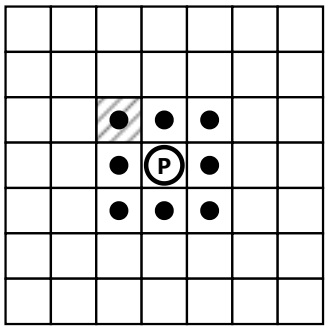

- ☐ Does Skitterwisp's token sniping feel fair, or too slippery?
- ☐ Is 15 holding points too quick or too slow?
- ☐ Do you ever gather, or is ink too slow to bother?
- ☐ When did you learn something about the other player's sheet, and did it change your plan?

How movement works

● can end the move here ✕ in range, but blocked rough (Forest / Mountain / Marsh) gap: no card ○ small corner circle = your ink

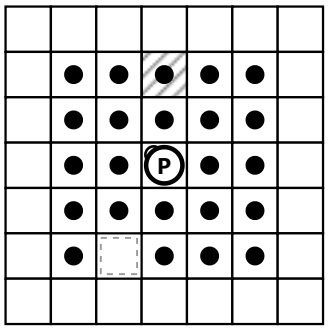

P you □**O** opponent

Guard: 1 square

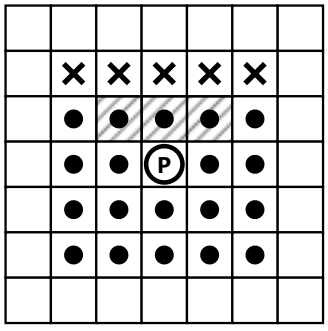

Any of the 8 neighbours. Stepping into rough terrain is fine: it just ends the move.

Ink bonus: +1 square

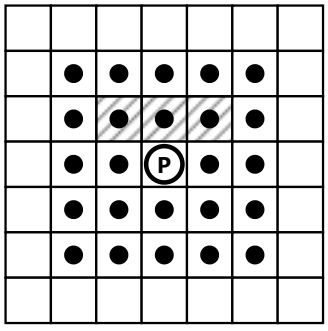

Start a move on your own ink and it goes 1 square further. Here a Guard moves 2.

Rough terrain ends your move

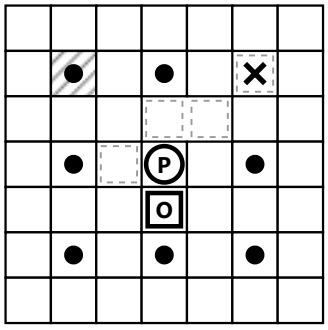

Stride (2 squares). You can enter the rough squares, but your move stops there, so everything behind them is out of reach this move.

Ambler's Steady trait

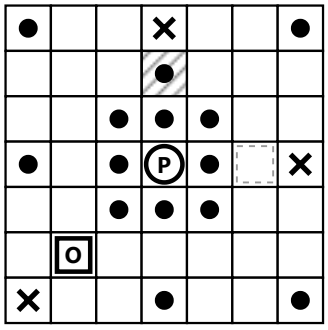

Same board: the first rough square each turn doesn't stop an Ambler, so the far row opens up.

Blink: exactly 2 away

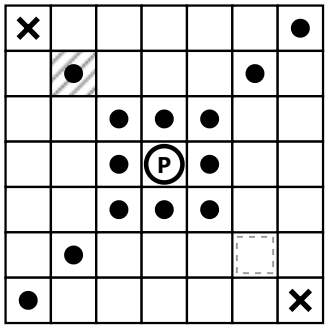

Teleports over gaps, rough terrain and even the opponent. It can't land on a gap (top right).

Burst: 1 square, or charge exactly 3

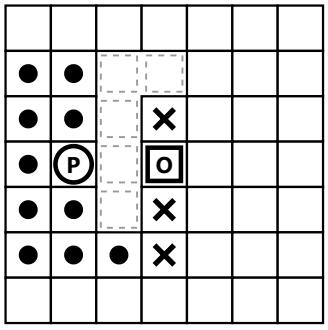

Rough terrain ends the charge early (up). A gap (right) or the opponent (down-left) blocks the line.

Glide: diagonals, or 1 straight

Up to 3 diagonally. Rough ends it (up-left); a gap blocks it (down-right). Or step 1 square straight.

Gaps and the opponent

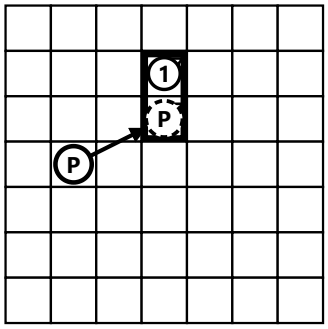

Stride (2). Gaps can't be crossed (only Blink jumps them), and you never move onto the opponent.

A turn, step by step

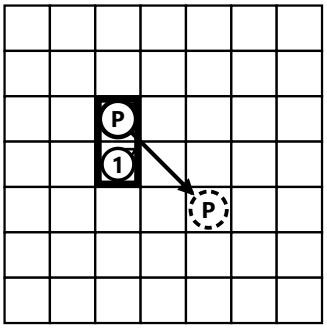

Each turn: draw 1 card, score 1 point per land holding your token, then take **2 actions** in any mix: **move**, **gather** ink, **rest** (swap a card from hand for the top of your deck), **claim**, or **cast** a sorcery. **Clearing** an enemy token you stand on is free.

1. Move, then claim

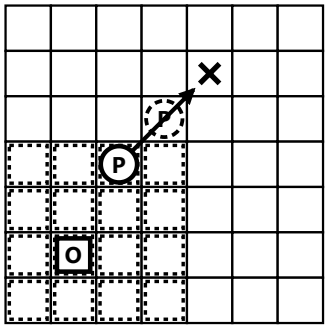

Action 1: move onto a claimable land (flag; the thick outline is one card, two squares). Action 2: claim it: your token covers the whole card.

2. Claim, then leave

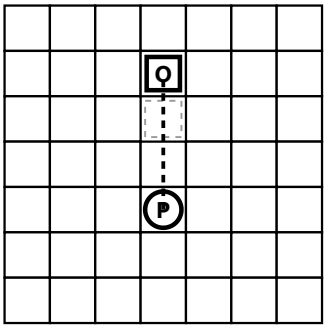

Claiming first and then moving away is allowed. The token stays, and at the start of your next turn it scores 1 holding point.

3. Leaving someone's reach

Your opponent holds Snapvine (range 2, dotted squares). You try to move from inside its range to the ×. Leaving triggers it: they cast it as a reaction, and your move ends on the next square (dashed P). One reaction per opponent turn.

4. Range and line of sight

Range counts squares (a diagonal counts as 1): O is 3 away. Nothing blocks line of sight yet, so a range-3 spell hits O across the gap. Gaps still block movement.

Character Sheet

Player 1: _____

This sheet is public. It shows what your opponent has learned.

RACE	INK	INK	CHARACTER

Claim tokens

Player 1 = circles, Player 2 = squares, so the board reads in black and white.

Pawns

Fold along the middle and stand them up. Pawns are anonymous on purpose: a pawn with a character's name on it would reveal your sheet.

Playtest Feedback *one sheet per game · fill it in together, right after*

Date _____ **Kit** 05bf85 **Players** _____

Rounds played _____ **Real time** _____ minutes

Player 1 played: ☐ Thornback ☐ Skitterwisp ☐ Brasshorn ☐ Vigilux ☐ Petalstep

Player 2 played: ☐ Thornback ☐ Skitterwisp ☐ Brasshorn ☐ Vigilux ☐ Petalstep

Who moved first? ☐ Player 1 ☐ Player 2 **Who won?** ☐ Player 1 ☐ Player 2 ☐ Draw

How? ☐ Knockout ☐ Holding points ☐ Decks ran out

Rate it (circle one)

Fun	dull	1	2	3	4	5	great
Rules were clear	lost	1	2	3	4	5	easy
Guessing the other sheet was tense	flat	1	2	3	4	5	tense
Game length	too short	1	2	3	4	5	too long
Felt fair	lopsided	1	2	3	4	5	fair

The hidden sheet

When did you first work out something about your opponent's sheet? What gave it away? Did it change your plan?

The moment

The play everyone reacted to, good or bad.

Confusing or argued-over rules

Cards

Too strong

Too weak / never wanted to play

Play again? ☐ Yes, now ☐ Yes, with changes ☐ No

One change you'd make
